PT Informasi Teknologi Indonesia Tbk

Jakarta, 8 November 2024

Company's Profile

About Jatis Mobile

PT Informasi Teknologi Indonesia, known as Jatis Mobile was founded in 2002 and started operating in 2003. As a Technology Company, Jatis Mobile has gained the trust of more than 500 companies, both multinational and national in Indonesia for 20 years. Jatis Mobile is engaged in providing world-class messaging services, digital distribution, custom development, chat commerce, and AI for various industries.

Jatis Mobile's client industries include Banking, Insurance, Multi Finance, Retail Distribution, Consumer Goods, E-Commerce, Travel, Hospitality, Government, Logistics, Automotive and many more

Jatis Mobile believes that with its world-class best service quality, it can help its client partners to transform digitally effectively so that they can develop their businesses.

After 20 years of being trusted to serve businesses and the business world, Jatis Mobile through IPO will develop its business by focusing on three business segments, namely, Enterprise Business, AI (Artificial Intelligence), and Small Medium Business.
